MEET US AT SEMA, LAS VEGAS

CARRUS will be participating in the SEMA Show, which will be held at the Las Vegas Convention Center from November 5 to 8, 2013. Book an appointment to meet us in person and discover the benefits of our new JMS features, including the latest wireless barcode technology, synching your inventory values in real-time with your accounting module, controlling access levels, and more. The SEMA Show is the premier automotive specialty products trade event in the world. In addition, the SEMA Show provides attendees with educational seminars, product demonstrations, special events, networking opportunities and more.

NEW FEATURES – JMS 13.1

- **Accounts Receivable:** View the average number of days between when an invoice is issued and when it is paid – per client and/or per invoice.
- **Orders:** Create your e-Return files in JMS and upload them directly to the Uniform site.
- **JMS Messaging:** Pricelist and promotion messages are now distinguished with different subjects in your inbox.
- **Access Rights:** System administrators can now control and limit access levels for different users in the General Display and Invoice Tools screens.
- **Perpetual inventory:** Sync your inventory values in real-time with your accounting module.
- **Cart:** You can now include up to 2000 items in the import-export function of the Shopping Cart. We have also added this function to the Transfers screen.

CARRUS OFFERS ITS CLIENTS CONTINUED TRAINING SO THAT YOU CAN MAKE THE MOST OF THE SOFTWARE. CONTACT US TODAY TO BOOK TRAINING FOR YOUR TEAM. LOOK FOR TUTORIAL VIDEOS ABOUT OUR NEW JMS FEATURES, ARRIVING SOON IN YOUR EMAIL INBOX!

IS IT TIME TO CHANGE YOUR SERVER?

If your server is no longer under warranty and is experiencing slowdowns or is running out of memory, it may be time to replace it before it adversely affects your business operations or worse yet, completely shuts down and paralyzes your daily activities.

Technology is evolving rapidly and new software versions and advanced features tend to require more and more resources to run properly. If you choose to keep an outdated server, you may be exposing your business to significant unforeseen costs. As computers evolve, replacement parts can become expensive or difficult to find and repair costs can add up quickly. Replacing these aging computers with newer equipment that will give you the processing power and storage capacity you need will not only upgrade your business, but also give you peace of mind.

The Carrus support team can help you make the right choices and guide you step by step through the transition.

CHANGING OR ADDING A WORKSTATION

It is important to equip your company and all workstations with a professional operating system compatible with our business management software solutions.

Carrus' solutions are compatible with Windows Professional versions only. We do not support the family version. In the interests of efficiency and in order to install our application, when changing or adding a workstation, make sure you have a professional operating system in place.

SUCCESS FOR THE CARRUS TEAM AT EXPO VENTE UNI-SELECT

It was great to meet with you and your shop customers at the Expo Vente Uni-Select held in Saint-Hyacinthe last September! The entire Carrus team was on hand at our AutoWay and CollisionWay booths. Denis, Ghislain, Melinda, Josée, Claude and Chantal had the pleasure of discussing with you about various SMS features, including the online appointment tool and the progression grid. Carrus Technologies is proud to have been part of this event along with the 200 other exhibitors present.

Thank you and see you soon in Vegas!
