

New Feature — SMS 13.1

Offer your customers the convenience of making appointments with you directly on your website. Online appointments will automatically appear in the appointments grid within SMS. How does it work? Simple. Customers enter their contact information and select the type of service they require along with the desired date and time. They will receive an email reminder on the day of the appointment.

Benefit from the new online appointment tool for only
\$ 40 / MONTH FOR THE FIRST 6 MONTHS.

A SIMPLIFIED WAY TO MAKE APPOINTMENTS FOR THE AUTOMOBILE BODY INDUSTRY + A PROGRESSION GRID FOR A BETTER OVERVIEW

Developed in collaboration with auto body professionals, the various enhancements made to CollisionWay - 13.1 will help you improve your performance-driven business.

The new simplified calendar screen is a more visual way of looking at work orders and organizing different types of appointments – quotation, vehicle repair and delivery, or courtesy vehicles reservation.

From a single screen, the progression grid allows you and your employees to monitor work progression in each department. You will be notified, for instance, when parts have not been delivered on time, when the time allowed for a task is exceeded or if there may be a need to reserve a courtesy vehicle for a customer. Get a clear overview of all ongoing operations in your repair shop, whether accessing it remote or on site.

LOOK AT SMS ONLINE HELP & OUR BRAND NEW TUTORIAL VIDEOS SECTION

Use SMS online help to find out about new product enhancements or learn more about existing features that will help you to better manage your business better. Want to know more about creating tools, making online appointments, insurance billing or the progression grid? Go to the video section of our online help to watch our tutorials.

CHANGING OR ADDING A WORKSTATION

It is important for all workstations within your company to be equipped with a professional version of the operating system compatible with our business management software solutions.

Carrus' solutions are compatible with Windows Professional versions only. We do not support the family version. In the interests of efficiency and in order to install our application, when changing or adding a workstation, make sure you have a professional operating system in place.

SUCCESS FOR THE CARRUS TEAM AT EXPO VENTE UNI-SELECT

It was great to meet with you and your shop customers at the Expo Vente Uni-Select held in Saint-Hyacinthe last September! The entire Carrus team was on hand at our AutoWay and CollisionWay booths. Denis, Ghislain, Melinda, Josée, Claude and Chantal had the pleasure of discussing with you the various SMS features, including the online appointment tool and the progression grid. Carrus Technologies is proud to have been part of this event along with the 200 other exhibitors present.

Thank you and see you soon in Vegas!
